

A NEW BEAMER THEME FOR QR_MUMPS

Alfredo Buttari

January 12, 2016

Institute or miscellaneous information

The *mtheme* is a Beamer theme with minimal visual noise inspired by the HSRM Beamer Theme by Benjamin Weiss.

Enable the theme by loading

```
pigliatela
```

```
nderculo
```

```
pigliatela
```

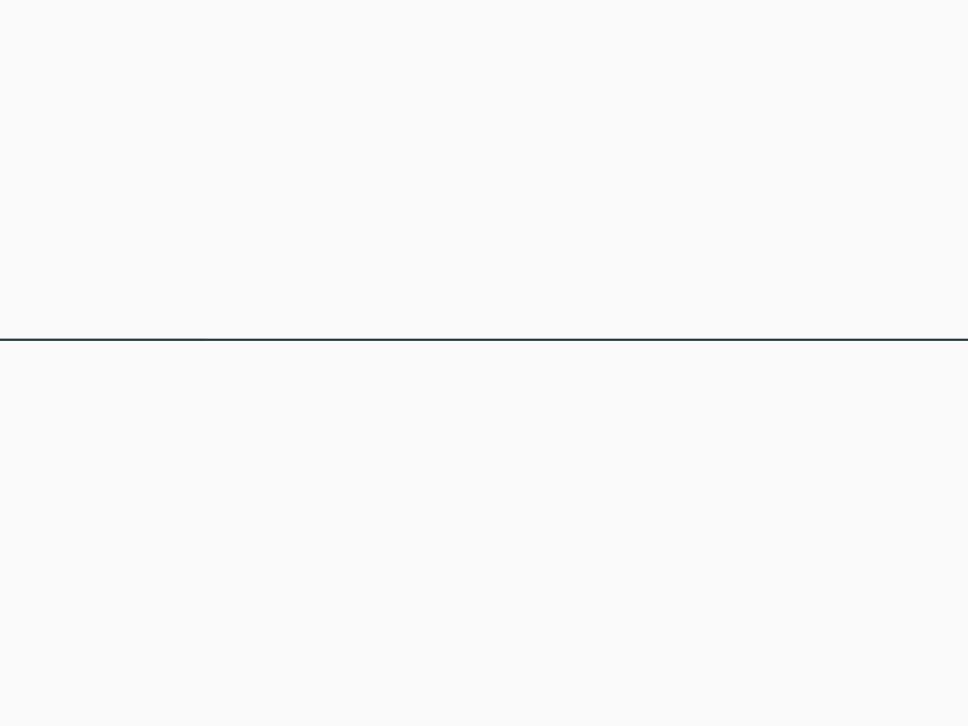

```
nderculo
```

Note, that you have to have Mozilla's *Fira Sans* font and XeTeX installed to enjoy this wonderful typography.

Sections group slides of the same topic

```
\section{Elements}
```

for which the *mtheme* provides a nice progress indicator ...

The theme provides sensible defaults to *emphasize* text, **accent** parts or show **bold** results.

becomes

The theme provides sensible defaults to *emphasize* text, **accent** parts or show **bold** results.

Items

- Milk
- Eggs
- Potatos

Enumerations

1. First,
2. Second and
3. Last.

Descriptions

PowerPoint Meeh.

Beamer Yeeeha.

- And now this

Animation

- This is really important
- Now this
- And now this

Table 1: Largest cities in the world (source: Wikipedia)

City	Population
Mexico City	20,116,842
Shanghai	19,210,000
Peking	15,796,450
Istanbul	14,160,467

This is a block title

This is soothing.

$$e = \lim_{n \rightarrow \infty} \left(1 + \frac{1}{n}\right)^n$$

I love Fortran!

```
program pippo

  integer, parameter          :: m=10, n=5
  real(kind(1.d0)), allocatable :: a(:, :)

  allocate(a(m,n))           ! allocate the matrix

  call random_number(a) ! fill it up

  call do_something(a) ! do something on it

  write(*, '("Hello world")')
  stop

end program pippo
```
